

## NLP TASK 2

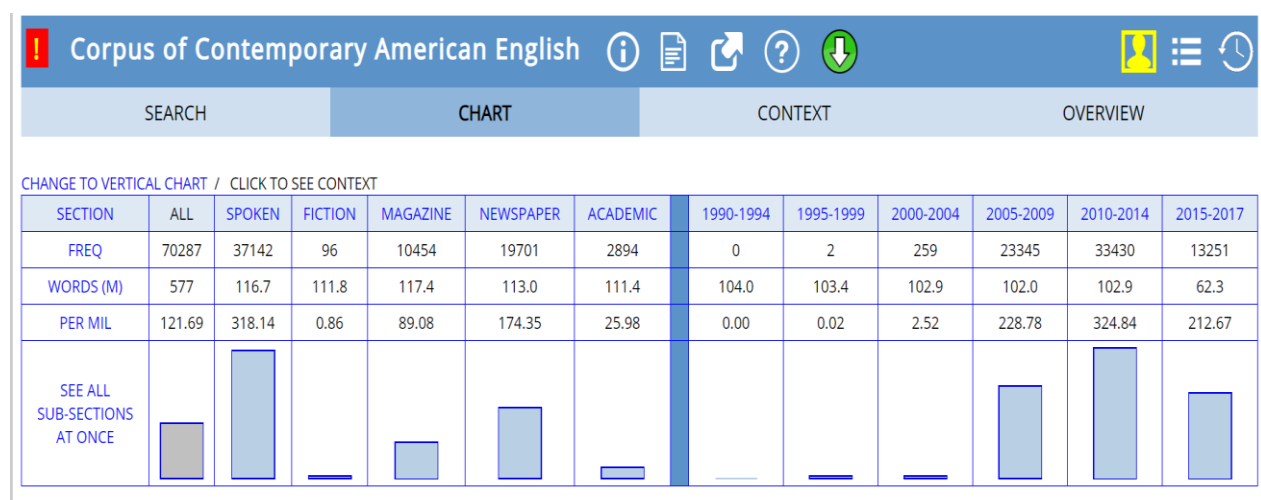

-RK SNEHA

17BIT0084

### 1. COCA CONCORDANCE

The screenshot shows the 'Corpus of Contemporary American English' interface. The 'SEARCH' tab is active. The search term 'OBAMA' is entered in the input field, and the part of speech '[POS]' is shown. Below the input field are buttons for 'See frequency by section' and 'Reset'. A checkbox for 'Sections Texts/Virtual Sort/Limit Options' is also present. On the right, the 'CHART display' section provides information about the chart options and includes examples of lexical change and variation.

- A search on "OBAMA"

The picture above shows that he was talked about a lot during 2010-2014.

#### WHY?

- He was elected as second president on 21 Jan 2013, being the first African-American. Obama started his healthcare, Obama Care in 2010. Osama Bin Ladden was killed by US special forces during his time.
